

LENS SOAP DISH

Stunning in its simplicity and flawless in its construction, this is a very special collection offered in a limited edition. The crystal-clear cubes are created with precision-engineered glass panels. On each pristine panel, a single concave lens is sculpted in the glass. Dramatically transparent, these pieces reveal subtle optical effects from every angle. For this collection, we have partnered with a leader in high-tech glass based in China. Production will be limited to allow for meticulous finishing. Please allow 10-12 weeks for delivery. Please be aware that tiny bubbles may randomly appear within an item. This is part of the handmade nature of our production and is not considered defective.
