

## DROP-IN LID - UNPLATED BRASS

This beautifully crafted, natural brass canister lid is designed to fit selected canister styles. The lower portion of the lid drops into the canister, providing a secure fit as the lid appears to "float" over the crystal. Constructed of solid brass, this lid has a seamless look and wonderful heft. The brass is presented in its natural, unplated state which will develop a patina over time. To maintain the original bright finish, simply polish with commercial brass cleaner.
