

HERRINGBONE

When we collaborate with designer Jamie Drake, we're always in for a treat - like this bold re-imagining of the classic herringbone pattern. Our artisans create these pieces using traditional verre eglomise craft techniques: the design is reverse-painted on glass, then mounted on wood. The edges are trimmed in gold leaf for a touch of "glam." Made in Peru. Please be aware that tiny bubbles may randomly appear within an item. This is part of the handmade nature of our production and is not considered defective.
